UHC 西子联合

致辞

不熟悉我们企业的朋友在初次见面时都会问我：西子联合是做什么的？这个问题还真不容易用三言两语说清楚。不过有一点是明确的：无论现在还是未来，我们的主业都是装备制造。

装备制造业是国家的根基。美国、日本、德国等世界强国能拥有现在的国际地位，能经受金融危机的冲击而屹立不倒，和他们装备制造业的实力是分不开的。同样，我们中华民族的“伟大复兴”和“和平崛起”也需要有强大的装备制造业和一批世界级的装备制造企业作为坚实的后盾。

今天的西子已经有了一定的基础，有能力也有责任为中国装备制造业的振兴作出更大的贡献。为了实现这一使命，在战略方向上我们始终坚持“节能减排，西子先行”，即把绿色节能环保作为产业发展的主导方向，相继开发了节能电梯及部件、节能锅炉、节能建筑等一大批节能减排产品和业务。除了产品创新，我们还在积极探索业务模式创新。例如杭锅集团已经从单一制造型企业向综合服务型企业转型。以西子联合大厦为样板，我们的节能服务公司还可以向客户提供节能建筑设计和改造的整体解决方案。

再先进的技术和产品都需要有可靠的品质作为保障。对于中国装备制造业来说，“从无到有”的问题已经基本解决，“以量取胜”的时代也已经过去，目前紧迫任务是“从有到优”，竞争的主流必定是“以质取胜”。加上西子联合的产品大多属于这种设备，所以我们把提供高品质的产品和服务作为重要的社会责任。为此，我们引进了美国联合技术公司的 ACE 管理和“金牌供应商”模式，从日本、台湾等地聘请专家担任公司高管和顾问，还实施了“十二五”品质专项规划。西子联合大学正在致力于“金牌车间主任”的培养。我们进入航空零部件制造业的主要目的之一也正是学习借鉴航空产业的质量管理体系，进一步提升其他业务产品和服务的品质。

总而言之，在我们看来节能减排和提升品质是一种责任，更是千载难逢的发展机遇，所以我们的使命和愿景是相辅相成的。西子联合在为客、环境和整个社会创造价值、履行责任的同时，也将逐步实现走向世界、成就百年企业的愿景。

我真诚地希望有更多的朋友认识西子联合，也真诚地邀请志同道合的朋友和我们一起加入振兴中国装备制造业的征途。

西子联合控股有限公司董事长

Words from the Chairman

Many friends who do not know about XIZI UHC always ask me in our first meetings, what business is XIZI UHC in? Well, I feel it is difficult to give them a brief answer. However, there is one thing for sure. Our main business, no matter at present or in the future, is and will always be equipment manufacturing.

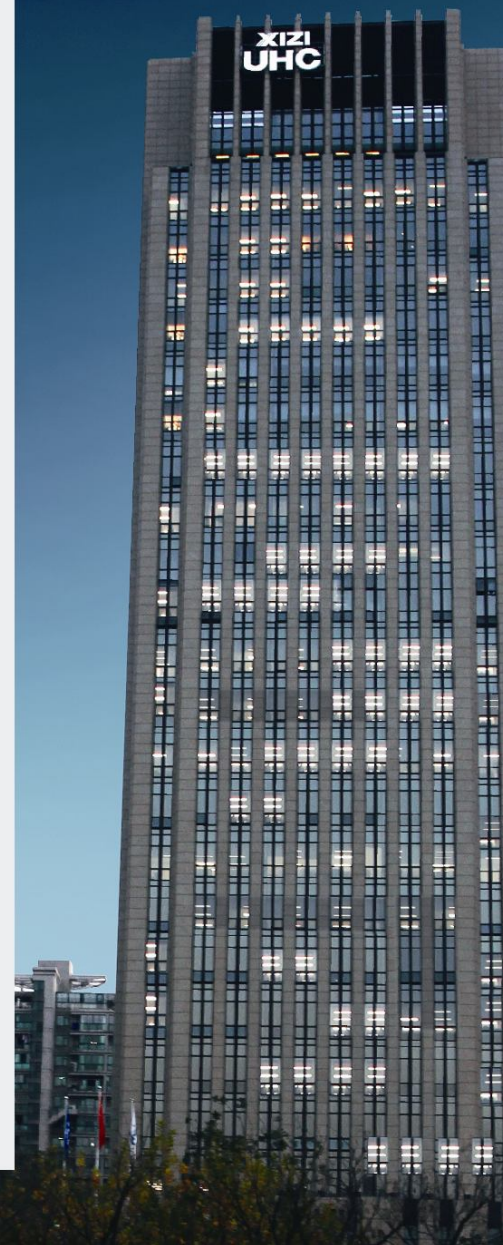

Equipment manufacturing is the foundation of a nation. World powers like the US, Japan, and Germany which have the leading international positions and which can stand against the impact of financial crisis, are largely attributed to their strength in equipment manufacturing. For us, the great rejuvenation and peaceful arising of China also require a powerful equipment manufacturing industry and a group of world class equipment manufacturing companies.

XIZI UHC has made some achievements so far. She has the responsibility and capability to make more contribution to the rejuvenation of China's equipment manufacturing industry. To realize our mission, XIZI UHC has made it a strategic priority to become a pioneer in energy conservation and emission reduction, which means that green, energy saving and environmentally friendly technologies are the company's development direction. Under this strategy, XIZI UHC has developed many energy saving and emission reducing products and businesses, including elevator and elevator components, boiler, building, etc. In addition to product innovation, we also actively explore innovations in business mode. For example, Hangzhou Boiler Group has successfully transformed itself from a simple manufacturing company to a comprehensive service-oriented company. Using XIZI UHC Building as the prototype, our energy conservation service company also offers clients with overall solutions for energy saving building design and reconstruction.

Any technology and product, no matter how advanced it is, must have a reliable quality. For China's equipment manufacturing industry, the issue of having nothing to having some has been solved, and the era favoring quantity has passed. The present urgent task is to move from having some to having something excellent. The mainstream competition will favor quality. Since XIZI UHC's main business is equipment manufacturing, we regard the supply of high quality product and service as our important social responsibility. Therefore, we introduced the ACE management and Gold Supply mode of UTC, invited experts from Japan and Taiwan to assume the role of high level company management and consultant, and carried out the special quality plan for the 12th 5-year period. XIZI UHC University is now working hard on the cultivation of Gold Workshop Directors. One of the main objectives of our entrance into aircraft part manufacturing industry is to learn the aviation industry's quality management system and apply it to the quality improvement of other products and services.

In short, we regard it not only a responsibility to save energy, reduce emission and improve quality, but also a very precious development opportunity. Our mission is in line with our vision. By creating values and fulfilling the responsibilities for our clients, the environment, and the whole society, XIZI UHC is marching toward the vision of becoming an international company and a long lasting company.

I sincerely hope that more friends can know about XIZI UHC, and I invite people who share the same goal to join us in the journey of propelling China's equipment manufacturing industry.

“Quality is the most effective weapon to seize the market peacefully.”

XIZI UHC holds to the most stringent quality standard and applies scientific inspection rules to ensure that each and every product reaches the highest quality standard in the industry. Years of hard work strengthens XIZI UHC's leading position of quality management in the industry, which meets and even exceeds the highest global resource purchase standard of many top 500 companies.

Since its entry into the aviation manufacturing area in 2008, XIZI UHC has absorbed and brought the advanced practices of aviation quality management system into its equipment manufacturing, with the goal of reaching aviation quality standard. Presently the quality management work is under the direct leadership of the company's top steering committee. By putting more investments in quality management, XIZI UHC will constantly improve product quality and never stop seeking excellence.

附：岭澳核电 LIN'AO NUCLEAR POWER PLANT PROJECT

杭锅集团为岭澳核电站1期1000MW级核电项目成功制造了常规岛高压加热器、低压加热器、冷凝器、除氧器等设备，总重近4000吨。产品被原国家计委、科技部、财政部等部门评为国家“九五”科技攻关重大科技成果。该产品无故障使用超过10年，经受了核工业严苛的质量要求，为杭锅进一步提高整体质量水平，成功进入核工业领域奠定了基础。

Hangzhou Boiler Group supplied equipments for Lin'ao nuclear plant's phase one 1000MW nuclear power project, including conventional island high pressure heater, low pressure heater, condenser and deaerator, with a total weight of almost 4,000 ton. The products were selected 9th five-year national major scientific and technological fruits by the former State Planning Commission, Ministry of Science and Technology, and Ministry of Finance. They have been in service for 10 years without any problem. By meeting the nuclear power industry's stringent quality standard, Hangzhou Boiler Group improves its overall quality standard and lays a good foundation for entering the nuclear industry.

精益制造

从与国际公司合资合作过程中，西子联合学习了先进制造技术与管理理念，并在长期实践经验的基础上，结合自身特点，开发并创新了西子专有的质量管理办法：LTS—Lead to Success—迈向成功。LTS 精益管理方法强调将客户导向、价值流动、品质为先、持续改进作为连续的过程，在保证产品质量的同时，实现价值的创造。

通过实施 LTS 精益管理方法，西子联合提升了精益生产和柔性制造能力，极大地发掘了生产潜能，优化了现场管理，提升了工作效率，高效先进的管理手段同时也为产品品质提供了可靠保障。今天，精益思想已经深入每一位西子人的心里，作为公司最为重要的战略能力，精益制造为西子联合的快速发展提供了重要的战略支撑和收益保障。

LEAN PRODUCTION

XIZI UHC has learned advanced manufacturing technologies and management concepts from its cooperation with international companies. By integrating those to its own features, XIZI UHC developed a unique quality management method named LTS, i.e. Lead to Success. The LTS method stresses a continuous process of customer orientation, value flow, quality first and continuous improvement. It aims to create values at the same time of ensuring product quality.

By implementing LTS method, XIZI UHC successfully improved its lean production and flexible manufacturing capabilities, tapped production potentials, optimized on-site management and increased work efficiency. The efficient and advanced management measures also ensured the reliability of product quality. Now lean production concept has been deeply rooted in every XIZI UHC employee, and has become the company's most important strategic strength. Lean production gives important strategic support and ensures good income for XIZI UHC's fast growth.

附：西子富沃德的环形流水线

西子富沃德是国内最大的永磁同步无齿轮曳引机制造基地，拥有中国第一条自主开发的主机生产流水线，年产量可达 80,000 台以上。

该环形流水线实现了曳引机装配的半自动化，采用动力线、拉动式装配，有利于标准化作业，深化了精益生产，提高了效率。与传统生产线比较，新线装配工人减少了 50%，而生产效率提高了 200%。

XIZI FORVORDA RING SHAPE PRODUCTION LINE

XIZI Forvorda is the largest manufacturing base of permanent magnetic synchronized gearless traction machine in China. It has China's first independently developed traction machine production line, with an annual capacity of 80,000 units.

The ring shape production line realizes semi-automatic assembly of traction machines, using power line and pulling assembly, which is good for operation standardization, lean production and efficiency increase. Compared with convention production lines, the new line cuts off 50% workers, while increases the work efficiency by 200%.

技术创新

“技术创新是企业发展的强大引擎，是成就百年西子的重要基石。”

我们强调自主研发创新，致力于向客户提供创新、可靠的产品和解决方案。关注客户需求，将“领先于客户满意”作为我们技术应用的起点，主动思考如何更好地为客户创造附加价值。为此，我们成立了多个国家级实验室和检测中心，研发覆盖了电梯、电梯部件、电子系统、立体车库、余热锅炉、航空部件等领域。

在强调产品应用创新的同时，我们关注前沿技术的发展趋势，通过与知名高校展开紧密合作，有效加快我们的创新步伐，实现知识和技能的互补。2010年，浙江大学西子研究院成立，主要在飞机零部件制造、复合材料、节能与智能建筑、高端机电设备和管输等专业领域开展研究。

人，是一切创造力的原点。我们鼓励创新，在公司内部努力营造拥抱革新、鼓励尝试、积极进取的工作氛围，让西子联合成为孕育创新的土壤。

TECHNICAL INNOVATION

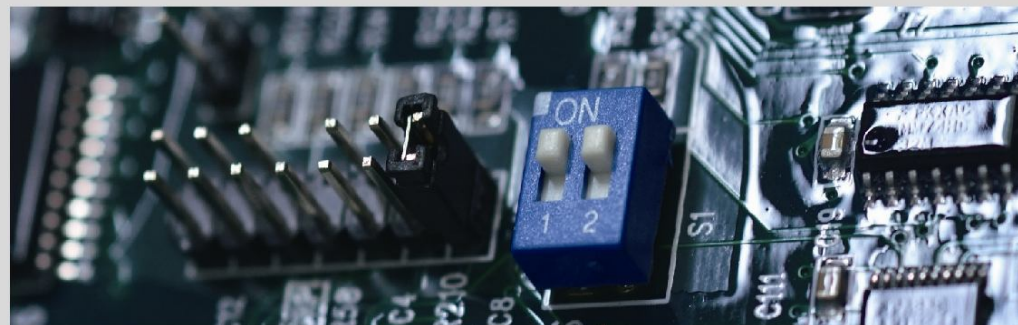

“Technical innovation is the powerful engine of company development and the important cornerstone to build a long-lasting XIZI UHC.”

We emphasize independent research and innovation, and provide innovative reliable product and solution to our clients. We pay attention to the needs of clients, which is the start point of our technology applications, and we take initiatives in thinking how to create additional values for our clients. Therefore, we established several state level laboratories and testing centers, and our research covers elevator, elevator component, electronic system, parking system, waste heat boiler, aviation parts, and so on.

When emphasizing innovation in product application, we also follow closely the technological development trend. By carrying out close cooperation with famous universities, we accelerate the process of innovation and the complementarity of knowledge and skill. In 2010, XIZI Research Institute of Zhejiang University was established, which carries out research work in areas of aircraft component manufacturing, composite material, energy saving and intelligent building, high-end electromechanical equipment and management output.

Human being is the origin of all kinds of creativity. We encourage innovation and are working hard to build a working atmosphere that embraces innovation, experimentation and enterprising. XIZI UHC strives to become the cradle of innovations.

绿色节能

关注我们生存的地球，应对环境与气候挑战，是人类社会面临的共同课题。

作为一家装备制造公司，我们将绿色节能技术的产品开发置于公司发展战略的首位。坚持绿色节能导向的技术创新，在技术开发中强调解决方案的可持续性和节能降耗的需求，是我们发展绿色技术的动力所在。

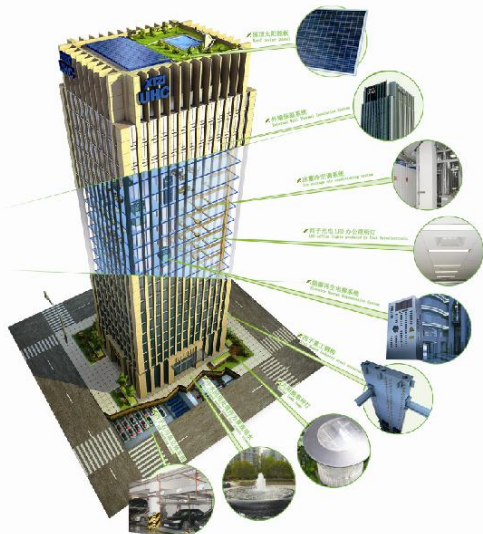

我们努力探索设计制造过程中更具可持续性的替代材料和先进技术，坚持走节能减排之路，成功开发多种创新型绿色节能产品，涵盖节能电梯及部件、节能锅炉、节能建筑等多个领域。

ENERGY CONSERVATION

It is a common task of all human beings to protect the earth and cope with environmental and climate challenges.

As an equipment manufacturing company, we put the development of green and energy saving products to the top of our company strategy. By holding to energy conservation oriented technical innovations, we value sustainability and energy conservation in our technology development, which is the motive of our efforts in green technologies.

In the process of design and manufacturing, we work hard to explore alternative materials and advanced technologies that are more sustainable and more energy saving. We have successfully developed new energy saving products which are used in elevator, elevator component, boiler, and building.

西子联合大厦率先采用太阳能发电系统、中水回用技术、外墙保温系统、全热交换空调系统、冰蓄冷 VAV 变风量低温送风系统、蓄电池系统等多项高效节能再生技术，使大厦的综合节能率达到了 65% 以上，被建设部和美国能源基金会评为“绿色建筑和低能耗建筑十佳设计项目”。

XIZI UHC Building adopts various highly efficient energy saving and regenerative technologies including solar power generation, reclaimed water usage, exterior wall heat preservation, full heat exchange air conditioning, ice storage variable air volume low temperature air supply, and battery system. The total energy saving rate of the building reaches over 65%, and it is awarded Best Ten Green Building and Low Energy Consumption Design Project by Ministry of Construction and America Energy Fund.

锐进能源再生电梯

西子奥的斯推出的 Regen 能源再生电梯，实现了电梯从节能向造能的革命性转变，最高节能可达 70%。

Regen Energy Regenerative Elevator

The Regen energy regenerative elevator developed by XIZI OTIS has achieved a revolutionary transform of elevators from energy saving to energy regeneration. The energy saving rate can reach up to 70%.

永磁同步无齿轮曳引机

西子富沃德生产的电梯电机综合节能可达 40%，油田电机综合节能可达 35%。

Permanent Magnetic Synchronized Gearless Machine

The elevator machine produced by XIZI Forvorda can save energy by 40%, and the oil field motor can save energy by 35%.

能源回馈控制系统

西子优迈推出的 GPF-GC 新型电梯控制系统综合节电率达 40%。

Energy Feedback Control System

The GPF-GC elevator control system developed by XIZI Optimax can save energy by 40%.

LED 照明产品

西子光电 LED 产品具有照明节电、环保、长寿命的优势。

LED Lights

The LED products of XIZI OPTO feature at energy saving, environmental friendly and long product life.

塔式立体车库

西子石川岛生产的塔式立体车库能有效解决城市停车难题，极大节约土地资源。

Tower Parking System

The tower parking system produced by XIZI IUK can effectively solve the parking problem in cities and can save land substantially.

余热锅炉

杭锅累计生产 1000 多套节能环保型余热锅炉，每年可节约标准煤 3000 万吨，年发电总量与三峡电站的年发电量基本相当。

Waste Heat Recovery Boiler

Hangzhou Boiler Group has produced more than 1,000 sets of waste heat recovery boilers, which can save 30 million tons of standard coal a year, almost equaling the yearly electric power generated by the Three Gorges Power Station.

垃圾焚烧锅炉

杭锅累计生产 100 多台垃圾焚烧炉，每年可处理垃圾 700 多万吨，减少垃圾 1000 多万立方米。

Refuse Incineration Boiler

Hangzhou Boiler Group has produced more than 100 refuse incineration boilers, capable of processing over 70 million tons of waste, reducing 10 million cubic meters of waste.

领导关怀

西子联合的成长和发展一直得到各级党委和政府的热情关怀和大力支持。多年来，党和国家领导人先后视察西子联合，对公司在装备制造和节能减排领域的努力给予充分肯定，这对西子联合是巨大的鼓舞和鞭策。

CARE FROM LEADERS

XIZI UHC has been enjoying great care and support from governments. Over the years, Party and State leaders have paid frequent visits to XIZI UHC, and gave high praise on XIZI UHC's efforts in equipment manufacturing and energy conservation and emission reduction. These are enormous encouragement for XIZI UHC.

2007年7月28日，胡锦涛总书记视察西子联合，对西子坚持将节能环保理念贯穿产品设计和生产过程的做法十分满意。

On July 28, 2007, CPC General Secretary Hu Jintao visited XIZI UHC, and was very satisfied at XIZI UHC's practice of implementing energy conservation concept in the whole process from product design to manufacturing.

2010年6月25日，温家宝总理视察西子联合，并勉励公司“多出第一，勇创第一，还要保持第一”。

On June 25, 2010, Prime Minister Wen Jiabao visited XIZI UHC and encouraged the company to have more No. 1s and keep the leading positions in industries.

2009年4月26日，江泽民同志视察杭锅集团，鼓励公司要继续做好高效节能减排产品，打造技术先进的重大装备制造基地。

On April 26, 2009, Mr. Jiang Zemin visited Hangzhou Boiler Group and encouraged the company to continue producing highly efficient energy conserving and emission reducing products, and to build Hangzhou Boiler Group into a technologically advanced manufacturing base for major equipments.

2009年3月31日，国务院副总理张德江视察西子联合，并题词“节能减排，西子先行”。

On March 31, 2009, Vice Prime Minister Zhang Dejiang visited XIZI UHC and wrote down that XIZI UHC is a pioneer in energy conservation and emission reduction.

附录：西子联合大事记

- 1981年7月 花园农机厂注册成立“杭州西子电梯厂”。
- 1981年5月 西子第一台手拉交栅门货梯安装于浙江省土特产公司。
- 1983年6月 西子第一台 KT05-XPМ 载客电梯安装于郑州红光纸箱厂。
- 1989年9月 西子第一台自动扶梯安装于杭州百货大楼。
- 1993年3月 西子第一台电梯运往越南。
- 1994年10月 浙江西子电梯集团公司成立。
- 1995年 浙江西子房地产开发有限公司成立。
- 1996年 杭州西子立体车库有限公司成立。并成功试制西子第一台立体车库。
- 1997年3月 西子与全球第一的美国奥的斯电梯公司成功合资，揭开了西子与世界 500 强携手合作的序幕。
- 1999年8月 成立西子电梯集团有限公司。
- 2001年12月 杭州西子孚信科技有限公司成立。
- 2002年 投资成立杭州西子典当有限公司和杭州西子担保有限公司。
- 2003年3月 西子联合控股有限公司成立。杭锅集团加盟西子。
- 2004年3月 西子联合与日本石川岛合资成立西子石川岛停车设备有限公司。
- 2004年5月 浙江西子富沃德电机有限公司成立。
- 2004年5月 杭州起重机械有限公司加盟西子。
- 2004年7月 西子联合与日本三菱重工签订盾构机合作协议。
- 2005年5月 由杭锅制造的中国第一台 9FA 重型燃气轮发电机组在浙江半山天然气发电厂点火成功。
- 2006年4月 杭锅集团与三菱重工合作开发的两台高品质地铁盾构机刀盘首次出口日本用于地铁项目。
- 2006年7月 西子奥的斯新厂区在九堡举行落成典礼。
- 2006年8月 西子联合成为百大集团（股票代码：600865）第一大股东。
- 2006年8月 浙江西子重工钢构有限公司成立。
- 2006年9月 西子联合和绿城集团共同成立绿城西子房产集团。
- 2007年2月 西子联合发布国内民营企业首份企业社会责任报告。
- 2007年7月 胡锦涛总书记视察西子联合。
- 2007年10月 西子孚信成为第一家参与香港地铁屏蔽门项目建设的中国民营企业。
- 2007年12月 杭州优迈科技有限公司成立。
- 2008年9月 首台用于南京、苏州地铁隧道挖掘工程的盾构机“西子号”诞生。
- 2008年 “XIZI” 商标认定为中国驰名商标。
- 2009年2月 杭锅集团开工制造价值 1.8 亿元的广东阳江核电站工程常规岛加热器设备。
- 2009年4月 西子石川岛研发 PCS52-XI 型超高速垂直升降停车设备创亚洲单库容车量新记录。
- 2009年5月 西子联合成为九家入围中国大型客机 C919 项目首批供应商的唯一的民营企业。
- 2009年9月 沈阳西子航空产业有限公司成立。
- 2009年10月 西子富沃德成功研发国内首创 7m/s 高速电梯主机。
- 2010年3月 西子航空工业有限公司取得浙江省首份航空工业有限公司工商营业执照。
- 2010年5月 浙江大学西子研究院授牌成立。
- 2010年5月 杭锅集团举行象征振兴民族工业新成果的首台国产 30 万吨年甲醇气化炉发运仪式。
- 2010年6月 温家宝总理莅临考察了西子富沃德电机有限公司。
- 2010年8月 西子联合总部迁入西子联合大厦，迈入钱江发展时代。
- 2010年12月 西子联合北方综合制造基地启动奠基仪式。
- 2010年12月 西子联合西南制造基地完成布局。
- 2010年 西子联合入股青岛捷能汽轮机集团股份有限公司。
- 2010年 杭锅集团开工制造全球单台容量最大的广东台山 2×1755MW 核电机组常规岛高压加热器和水水换热器设备。
- 2011年1月 杭锅集团（股票代码：002534）在深交所中小板挂牌上市。
- 2011年3月 西子联合电梯部件产业园在临安经济开发区正式奠基。

APPENDIX: XIZI UHC MILESTONES

- 1981.7 Hangzhou XIZI Elevator Plant was officially founded on the basis of Garden Agricultural Machinery Plant.
- 1981.5 The first hand-pull freight elevator produced by XIZI was installed in Zhejiang Special Local Product Company.
- 1983.6 The first passenger elevator of model KT05-XPМ produced by XIZI was installed in Zhengzhou Hongguang Carton Plant.
- 1989.9 The first escalator produced by XIZI was installed in Hangzhou Department Store.
- 1993.3 XIZI exported its first elevator to Vietnam.
- 1994.10 Zhejiang XIZI Elevator Group was founded.
- 1995 Zhejiang XIZI Real Estate Development Corporation was founded.
- 1996 Hangzhou XIZI Parking System Corporation was founded. It produced the first parking system product in the same year.
- 1997.3 XIZI and OTIS Elevator Company of America, the world No.1 elevator company, set up a joint venture, kicking off the cooperation journey of XIZI with world top 500 companies.
- 1999.8 XIZI Elevator Group was founded.
- 2001.12 Hangzhou XIZI Trust Tech Co., Ltd. was founded.
- 2002 Hangzhou XIZI Pawn Corporation, and Hangzhou XIZI Guarantee Corporation were founded.
- 2003.3 XIZI United Holding Corporation was founded. Hangzhou Boiler Group joined XIZI UHC.
- 2004.3 XIZI UHC and Japan IUК Company set up a joint venture of XIZI IUК Parking System Co., Ltd.
- 2004.5 Zhejiang XIZI Forvorda Electrical Machinery Co., Ltd. was founded.
- 2004.5 Hangzhou Hoisting Machinery Co., Ltd. joined XIZI UHC.
- 2004.7 XIZI UHC signed tunnel boring machine cooperation agreement with Mitsubishi Heavy Industry Company of Japan.
- 2005.5 The first Chinese 9FA heavy gas turbine power generator set manufactured by Hangzhou Boiler Group was successfully ignited in Zhejiang Banshan Gas Power Plant.
- 2006.4 Hangzhou Boiler Group worked with Mitsubishi Heavy Industry to produce high quality cutting wheels for tunnel boring machine, which were exported to Japan for subway construction.
- 2006.7 The completion ceremony of XIZI OTIS new factory area was held.
- 2006.8 XIZI UHC became the major share holder of Baida Group (stock code: 600865).
- 2006.8 Zhejiang XIZI Heavy Industry Steel Structure Co., Ltd. was founded.
- 2006.9 XIZI UHC and Green Town Group set up a joint venture of Green Town XIZI Real Estate Group.
- 2007.2 XIZI UHC released the first corporate social responsibility report among all private Chinese companies.
- 2007.7 CPC General Secretary Hu Jintao visited XIZI UHC.
- 2007.10 XIZI Trust Tech became the first Chinese private company to take part in the subway platform screen door project in Hongkong.
- 2007.12 Hangzhou Optimax Tech Co., Ltd. was founded.
- 2008.9 The first tunnel boring machine named XIZI was produced to be used for subway construction in Nanjing and Suzhou.
- 2008 XIZI brand was selected as Chinese famous brand.
- 2009.2 Hangzhou Boiler Group started the production of conventional island heater for Guangdong Yangjiang Nuclear Power Plant with a value of RMB 180 million.
- 2009.4 The PCS52-XI super speed vertical parking system developed by XIZI IUК set a new Asian record of most vehicles accommodated by one single parking system.
- 2009.5 XIZI UHC became the only private among the 9 tier-1 suppliers of China’ s jumbo jet C919 project.
- 2009.9 Shenyang XIZI Aviation Industry Co., Ltd. was founded.
- 2009.10 XIZI Forvorda successfully developed the first 7m/s high speed elevator drive in China.
- 2010.3 XIZI Aviation Industry Co., Ltd. obtained the first business license of aviation industry limited company in Zhejiang.
- 2010.5 Zhejiang University of XIZI Research Institute was founded.
- 2010.5 The shipping ceremony of China’ s first 300 thousand ton per year methanol gasification boiler, a symbol of Chinese national industry rejuvenation, was held in Hangzhou Boiler Group.
- 2010.6 Premier Wen Jiabao visited XIZI Forvorda Electrical Machinery Co., Ltd.
- 2010.8 XIZI UHC relocated its headquarter into XIZI UHC Building, indicating the commencement of company development in Qiantang River era.
- 2010.12 The corner stone laying ceremony of XIZI UHC North China Comprehensive Manufacturing Base was held.
- 2010.12 XIZI UHC South-West China Manufacturing Base was completed.
- 2010 XIZI UHC acquired shares of Qingdao Jieneng Steam Turbine Group Co., Ltd.
- 2010 Hangzhou Boiler Group started production of conventional island high pressure heater and water-water heat exchanger for the world’ s largest single unit 2x1755MW nuclear power generator set in Taishang, Guangdong province.
- 2011.1 Stocks of Hangzhou Boiler Group (code: 002534) were listed for trade in SME Board of Shenzhen Stock Exchange.
- 2011.3 The corner stone laying ceremony of XIZI UHC Elevator Component Industrial Park was held in Lin’ an Economic Development Zone.
